KEYPAD PROGRAMMING

This is the default method to program the locks.
Via the keypad the OCS®PRO can, using the Master code:

- Set Public or Private mode.
- Change the Master code.
- Change the User code.
- Activate / deactivate sounder.
- Activate / deactivate signal LED.
- Change User code length: 4,5,6 digits.
- Set duration of use (Public mode lockers).

EKEY + SOFTWARE

Optional EKEY + Software can be supplied to quickly
electronically program the locks and adds additional
features as follow:

- **Set Rental Period** – Lock can be set to defined rental
  period e.g. 1 hour, 8 hours or expiry date (assigned mode).
- **Auto Open** – Locks can be set to auto open eg at end
  of day for cleaning or maintenance.
- **Audit Trail** – A list of last events and uses for different
  purposes.

EKEY

An optional EKEY can be provided to open/close the locks
as a master key if required or as ada key. It also adds a
cloning feature.

Program from one lock can be downloaded to multiple locks
saving time on set up and reprogramming multiple locks.

Multifunction EKEY can be configured as:
Master Key, Audit Key, Programming Key and ADA Key.

FEATURES & BENEFITS

- **Touch Keypad** – More durable than traditional push button
  keypads.
- **Extended Battery Life** – Up to 5 years.
